

GE CJ610/CF700 Inspection / Disassembly tooling

Set Master-Stator tool, 17A2587G01, GE 2C5387G02
Turbine shroud measurement gage
CF700 fan bucket bow and untwist measuring block
#2 bearing locknut spanner wrench tool
#2 bearing drop measurement tool
Stage two nozzle installation tool with torque multiplier
Nozzle area measurement tool, Starrett, GE 21C5448
PTO disassembly/assembly locknut spanner tools
Gearbox axis A & B locknut spanner tools
Gearbox axis A & B shim measurement fixtures, GE 21C683
Gearbox shaftgear spline measurement tool kit, GE 21C3001P010
Gearbox bearing and seal housing removal kit, GE 2C5333-
#3 bearing simulator
#1 bearing locknut spanner tool
CF700 fan rotor bearing locknut spanner tool
Engine compressor lifting eye
Enerpac P=391
Turbine rotor assembly hyd. Puller
CF700 fan bearing and carbon seal runner puller
#2 bearing seating tool
#2 bearing height measurement tooling
#2 bearing puller clamshells
Inlet guide vane clamps
Accessory gearbox alignment fixture
Flat bar for measurement
Gearbox shaftgear bearing removal kit
Assorted shop made turbine rotor disassembly/assembly tooling
Several shop made CJ610 engine work stands, vertical and horizontal
Several shop made CF700 engine work stands, horizontal
Shop made CF700 fan rotor disassembly/assembly table
Vacuum pump with gage and tooling
Several shop made CJ610/CF700 engine shipping bucs
Numerous other small specialty tools
