Aircraft was accepted by Air Force in July of 1953. It is an Ex-Peruvian Air Force Aircraft. Rebuild was done in 2004 Aircraft was rebuilt and ready for weight and balance at that time, taxi tested. It will require some new hoses at this time because of fuel leak. Aircraft is complete less radios and will take very little to complete. We would suggest that the aircraft be trailered out or spend time accomplishing work needed before ferry flight. Aircraft has combat history and gun ports.

Engine: This project will be sold less the engine.

Ex-Peruvian Air Force Aircraft. This aircraft is completely disassembled and will require complete rebuilt. Aircraft is approximately 90% complete less engine and possibly some small parts and/or fairings.
